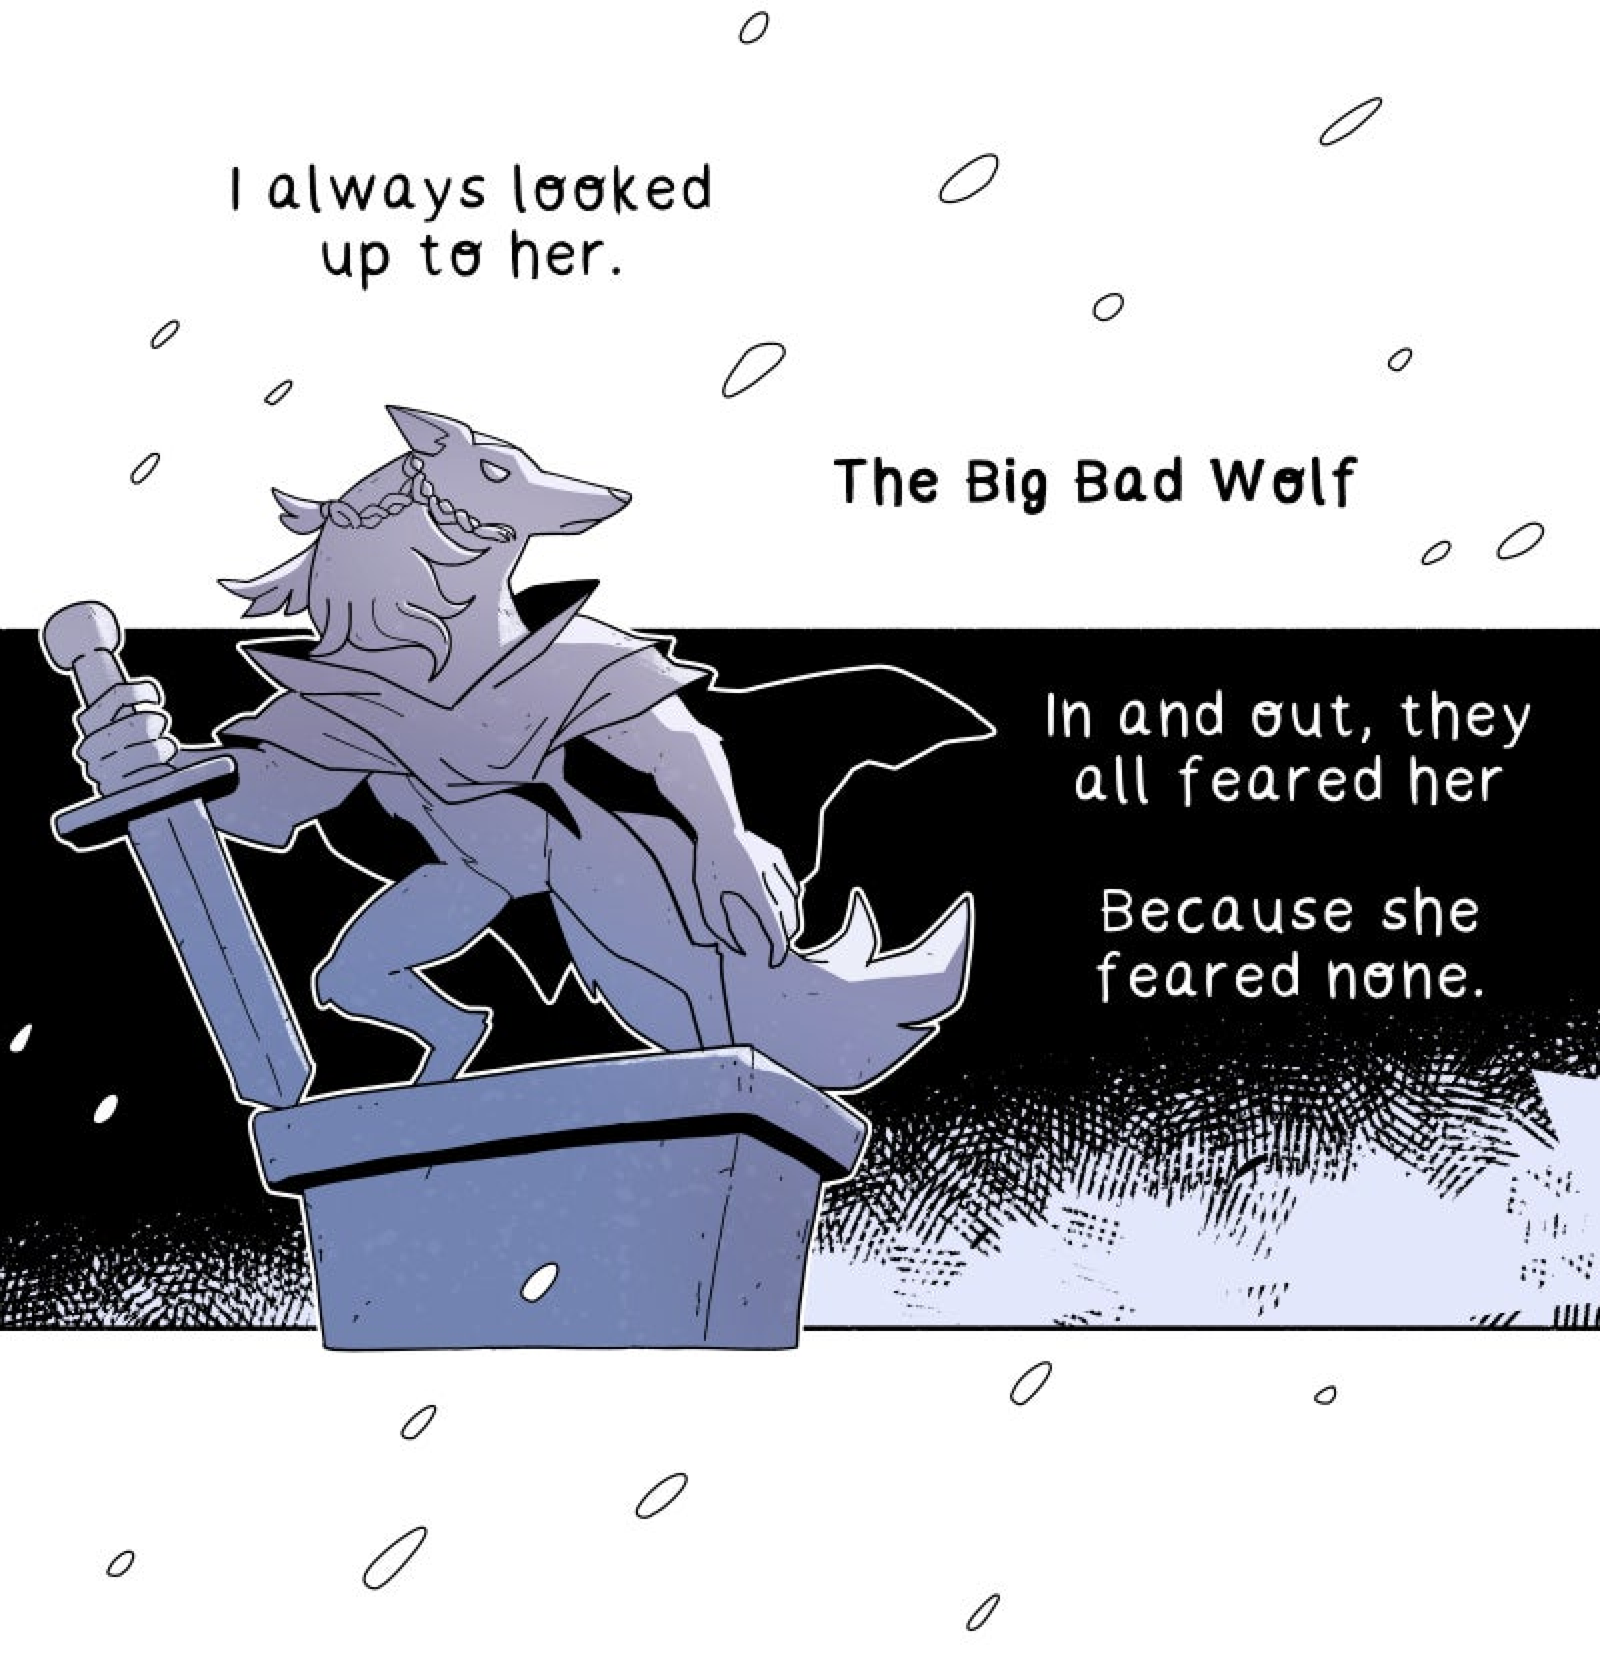
El Silbón - TOL Prologue

Mar 13, 2023



I always looked up to her.
The Big Bad Wolf
In and out, they all feared her
Because she feared none.

A testament of what a wolf oughta be.

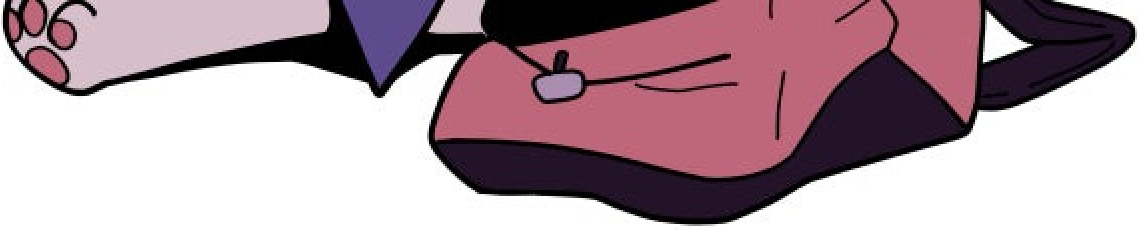
Then there is me.

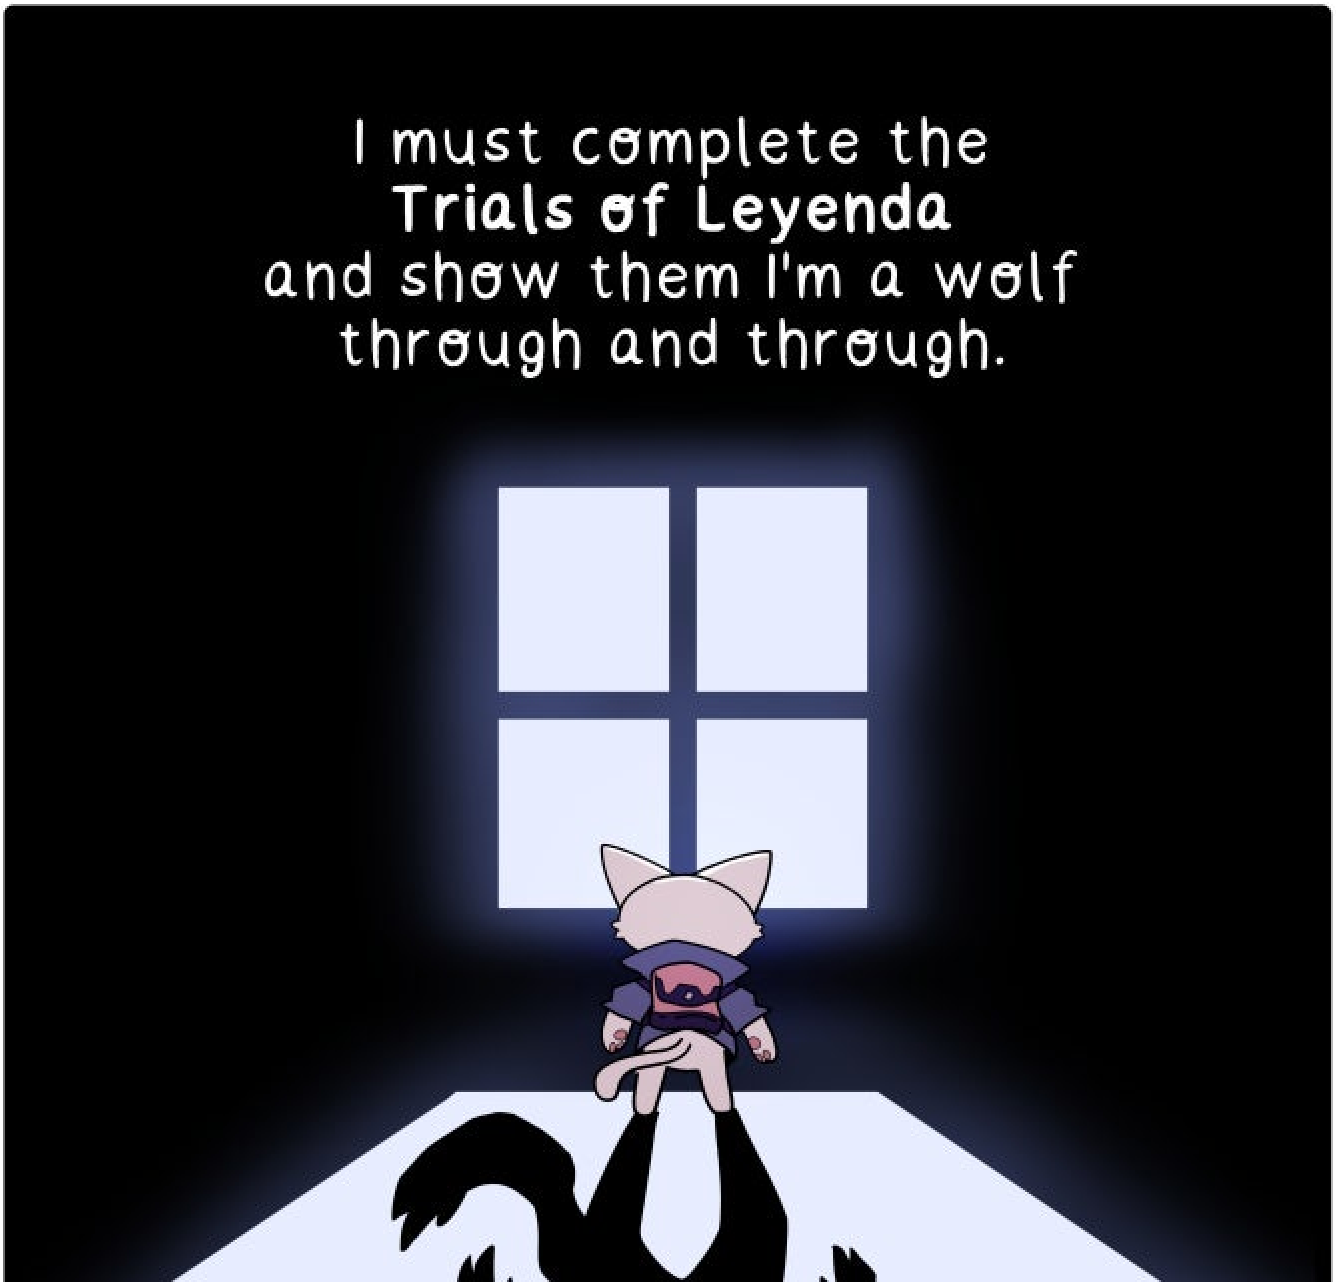
You can call me Lobo.

Disdained by
the rest

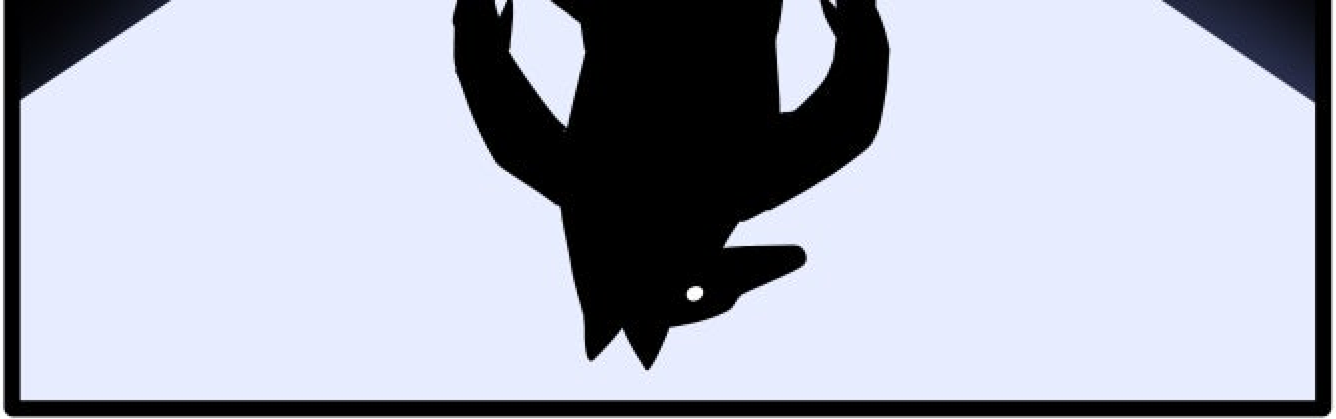
There's no place in
this wolf village
for a little scaredy cat.

Unless he
grows **fearless**.

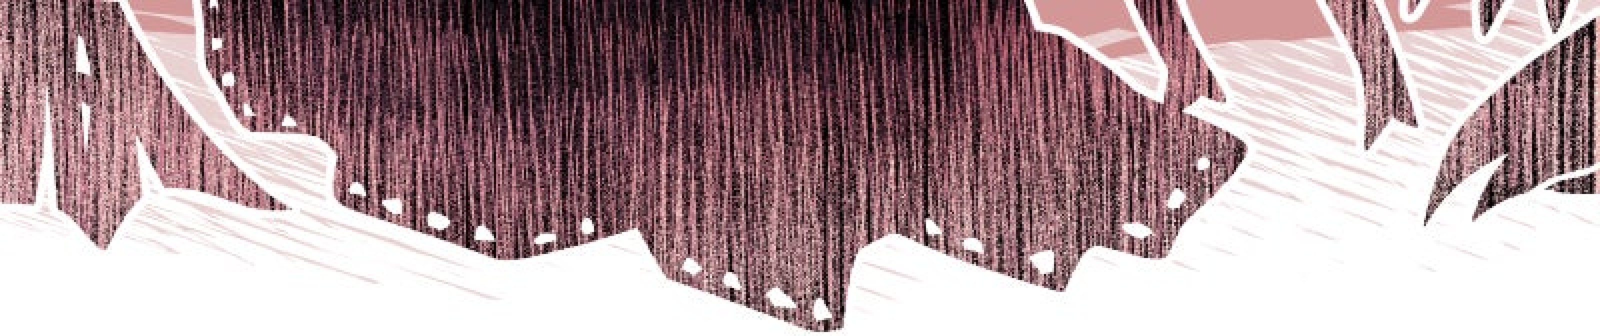




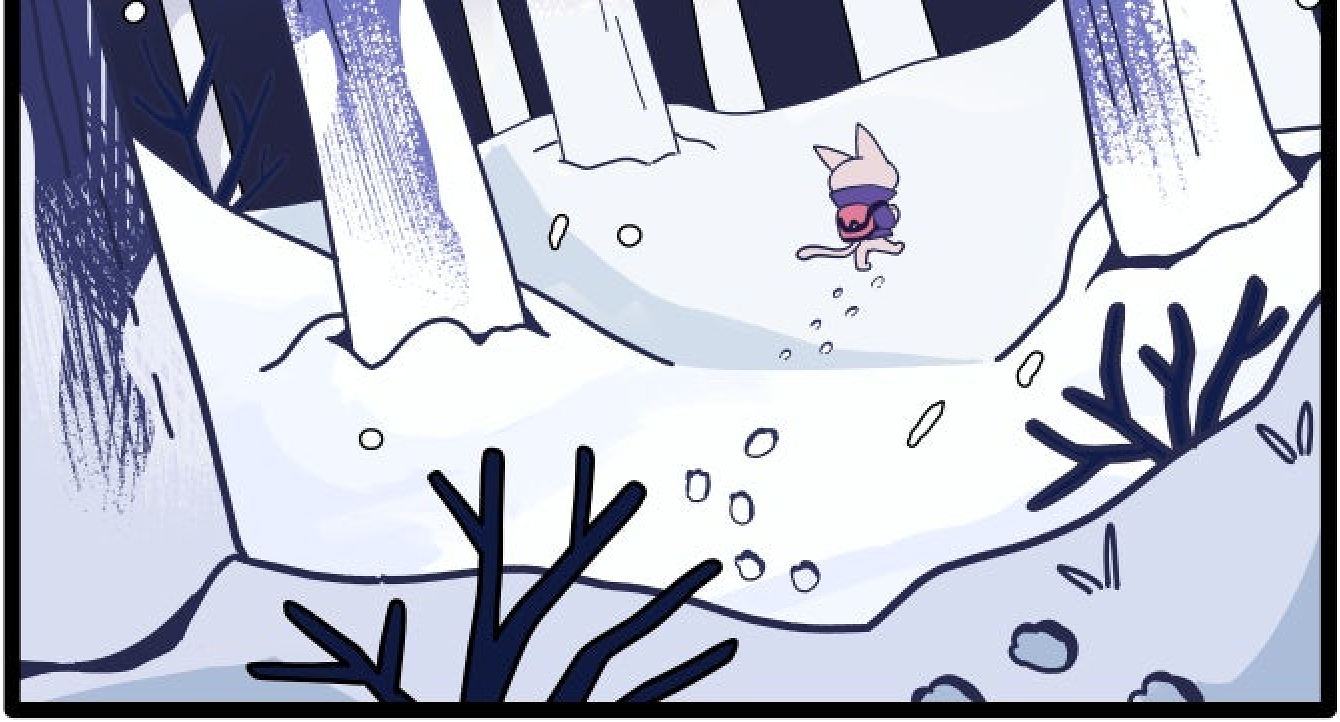
I must complete the
Trials of Leyenda
and show them I'm a wolf
through and through.



Track the most dreaded legends and unveil them.



The problem is, no one knows where to find them.
It would take a legendary hunter, an expert traveller, a smuggler



A friend.

Are you ready?

And a friend I have

And a friend I have.
